Weeding Tool ? See - www.forevertransferpaper.com/weeding-tool

Application Tape Flock? See - www.forevertransferpaper.com/application-tape

Matt Finishing Paper? See - www.forevertransferpaper.com/finishing-paper

PRESS SETTINGS

Pressure · Medium - 3 bar (43.5 PSI)

Temperature · 150-180 C (302-356 F)

Time · COTTON 10-20 seconds
POLYESTER 30 seconds

APPLICATION

1. Print and cut your design.
2. Remove excess transfer using your weeding tool.

OPTIONAL · cover your design with application tape flock. If you are not using application tape, cover your design with matt finishing paper before pressing.

4. Position your textile onto your heat press.
5. Press for 5 seconds.
6. Position your design onto your textile.
7. Press according to the above settings.
8. Peel off the application tape or remove matt finishing paper (if applicable).

These instructions are based on using a professional Adkins swing-around press, adjustments may be required depending on the press you are using.

WASH & CARE

- ♦ Warm wash up to 60·C

This transfer paper is not suitable for application using a household iron.
